Career Objective

Looking to obtain the position of Software/App Developer intern in a fast-paced tech environment to utilize well-honed skills in computer science and extensive experience in developing customized software based on varying client demands.

Work Experience

Freelance Software Developer

August 2017 – June 2020

- Engineering a car classifieds mobile app, a promotions/rewards mobile app, an order processing mobile app, and a posture correcting mobile app available for download
- Communicating with clients to deliver quality software projects and lasting professional relationships
- Upholding integrity of over 3,000 users on mobile applications
- Researching, identifying and documenting client's technical requirements

System Administrator

December 2019 – June 2020

- Managing LAMP instances deployed on 3 local RHEL servers
- Leading migration of a RHEL5 server to RHEL7
- Transforming static website to CMS
- Installing and configuring GitLab on virtual machines

Global Product and Technology Intern at ADP

June 2020 – July 2020

- Contributing to research and development for new Android features
- Writing neat and professional code following Kotlin best practices
- Understanding scaling architectures to support the 26 million active users of their mobile app
- Implementing Amazon Web Service's Textract to go beyond standard OCR and extract data from W-4, I-9, bank checks, and time sheets in order to automate workflows

Technical Skills

- **Tools:** Git, Junit Testing, Maven, Gradle, and Microsoft Teams
- **Languages:** JS, Java, Kotlin, SQL, C, C++, PHP, Python, Swift, HTML, & CSS
- **Cloud-Based Technologies:** Google's Firebase, Cloud-Functions, & AWS
- **Server Management:** Red Hat Enterprise Linux, Ubuntu Server, LAMP, & MYSQL
- **Frameworks:** Scrum, React Native, Spring Boot

Education

- B.S in Computer Science from University of Georgia
- Graduating May 2021
- Current GPA: 3.55
